

Date: 3rd March, 2011

Affected Products: IFS-008 Conventional Fire Alarm Control Panel
IFS-2400 Conventional Fire Alarm Control Panel

Dear Valued Customer,

Due to the obsolescence of critical vendor supplied components, Notifier is announcing the discontinuation of the following products:

<i>Part #</i>	<i>Description</i>	
10490	IFS-800L	IFS-2400 CPU board
10094	IFS-801L5	IFS-2400 Termination board
10489	IFS-008H	IFS-008H Main Termination and CPU board

Whilst we still carry a small quantity of these products in inventory, once this stock is exhausted no further replacement boards will be available.

Please contact your Notifier system consultant to evaluate how this product discontinuation will affect support for specific sites and what options you may wish to explore for ongoing system needs.

If you have any question please do not hesitate to contact me.

Sincerely,

James Edwards
Product Manager
