## OnyxWorks Workstation v3.18

Dear Valued Customer,

Version 3.18.154 is now released for the Notifier OnyxWorks Workstation.

This upgrade includes the following changes;

- Added functionality to automatically print alarm events, and alarm devices maps.
- Added improved support for larger monitors such as 19", 22" and 42".
- Added support for VESDA gateway.
- Removed stand-alone configuration tool. Full workstation install will now provide configuration tool and workstation demonstration mode functionality. Licence dongle is still required for full functionality.
- Improvements to user interface.

### Compatibility

- Not compatible with Echelon gateway and NIONs
- Only compatible with Windows 7 64-bit Professional
- AFP-2800 v6.00 or higher is required for VESDA gateway support
- NFN gateway version must be v3.18

Contact your systems consultant for more information.

Sincerely,

James Edwards  
Product Manager
