

Date: 23<sup>rd</sup> April, 2007

<b>Affected Products:</b>	NPS-3	3A offline switch-mode power supply
	NPS-5	5A offline switch-mode power supply
	NPS-11	11A offline switch-mode power supply

We will be releasing a new range of offline switch-mode power supplies to replace our ageing range of PS241/3/9 power supplies over the next few weeks. The new range will consist of the following items;

Part #	Description	Replaces	Sell Price
11910	NPS-3S ~3A stand-alone power supply on slim-line (PS243) chassis	1329 – PS241 1330 – PS243	\$300
11911	NPS-5S ~5A stand-alone power supply on slim-line (PS243) chassis	1330 – PS243	\$450
11912	NPS-11S ~11A stand-alone power supply on slim-line (PS243) chassis	1330 – PS243 1331 – PS249	\$600
11913	NPS-5 ~5A stand-alone power supply on wide-line (PS249) chassis	1331 – PS249	\$450
11914	NPS-11 ~11A stand-alone power supply on wide-line (PS249) chassis	1331 – PS249	\$600
11915	NPS-5S/2800 ~5A stand-alone power supply on slim-line (PS243) chassis for AFP-2800	1330 – PS243	\$450
11916	NPS-11S/2800 ~11A stand-alone power supply on slim-line (PS243) chassis for AFP-2800	1330 – PS243 1331 – PS249	\$600
11917	NPS-5/2800 ~5A stand-alone power supply on wide-line (PS249) chassis for AFP-2800	1331 – PS249	\$450
11918	NPS-11/2800 ~11A stand-alone power supply on wide-line (PS249) chassis for AFP-2800	1331 – PS249	\$600
11921	NPS-DISP Display module kit for NPS-xxx power supply	1364 – PCB911	\$90

The new range has many improved features such as reverse-battery protection, improved efficiency etc and is approved to AS4428.5. Please refer to manual for more details.

Please be aware that there may be a cross-over period to enable us to exhaust all current stock

Sincerely,

James Edwards  
Product Manager
