

Date: 28th November, 2007

Affected Products: 10512 – BacNet Gateway

Notifier is pleased to announce the release of updated software for the BacNet gateway. The latest release, v3.9.4 further improves the reliability and compatibility of the gateway onto a Bacnet network. This software may be used to upgrade existing sites through the use of the gateway configuration tool.

If you have any question please do not hesitate to contact me.

Sincerely,

James Edwards
Product Manager
