

Date: 19 January 2009

Affected Products: FDMR-1 – FlashScan 2 x input 2 x output module

Notifier is pleased to announce the release of the FDMR-1 FlashScan multi-module. The FDMR-1 multi-module is capable of replacing two monitor modules and two individual relay control modules in an intelligent alarm system. Each monitor input is intended to interface between a fire/security control panel and one or more devices, and each relay output is intended for Form C switching applications which don't require wiring supervision for the load circuit.

The FDMR-1 multi-module has several different mounting options including DIN rail clip, panel mount clip and surface mount enclosure.

Ordering Information:

Part #	Description	Trade Price
12111	FDMR-1 – FlashScan multi-module	\$210-
